

CHANGE DOESN'T HAPPEN ALONE

LIVE UNITED

Every day, people in our community struggle with issues that may seem impossible to solve: Limited access to health services. Children who start school without the skills necessary to succeed. Families who can't afford to put food on their tables. These are tough problems that threaten the future of individuals and our community. But there is hope. There's United Way.

United Way fights for the education, financial stability, and health of every person in our community. We're equipping children to build healthy relationships, a strong sense of self, and leadership skills. We're meeting the needs of our neighbors who are hungry and hurting. We're providing job-skills training to shift the odds for people from all over our community.

We are more than just fundraisers. We are leaders, partners, and problem solvers. We surround our community's most critical problems, and we fight. With our partners — including more than 350 local businesses and countless individuals and families — we're offering hope and help where it's needed the most. In the last year alone, grants made through United Way's Community Fund impacted students who improved their reading skills through high-quality tutoring programs, homeless families who received support and services to find and keep an affordable home, and people who received dental treatment, free of charge.

We are strengthening our community from the inside out, but there's still so much more to do. Change doesn't happen alone. It takes the commitment and generosity of donors, volunteers, and partners to turn the fight into a win — a win that's not just a short-term contribution, but a long-term solution. Give to United Way's Community Fund, and join us in fighting to build a better tomorrow today.

Together, we're breaking the cycle of poverty through a focus on education, financial stability, and health.
